

Custom-Made Fitted Sheets & Mattress Protectors Order Form

Thank you for choosing Ship Shape Bedding's Custom-Made Service

Please note:

All our Fitted Sheets are elasticated around the whole edge with a generous amount of fabric that will tuck under the mattress.

Our Mattress Protectors have wide elastic straps, rather than nylon webbing, to ensure perfect tension and fit with no excess of material to hide away.

Material:

All our sheets can be made in 100% Cotton or 'Easy-Care' (50% Cotton :50% Polyester)

Cotton Sheets are available in white or cream:

Easy Care are in the colours shown below:

How To Order Your Custom Made Fitted Sheets & Mattress Protectors

- To help you take the correct dimensions we have drawn the most common shapes that we are asked for. Please simply add the dimensions (in centimetres please) to the drawing that closest represents the fitted sheets that you want.
- Note the first six shapes are all 'double' shapes and the next four are 'single' shapes.
- If you do not see the shape that you need, please feel free to send us a sketch with your dimensions and we shall take it from there.
- **Turn around is normally 2-3 weeks**

You can e-mail, fax or post this back to us with your payment details to the address below.

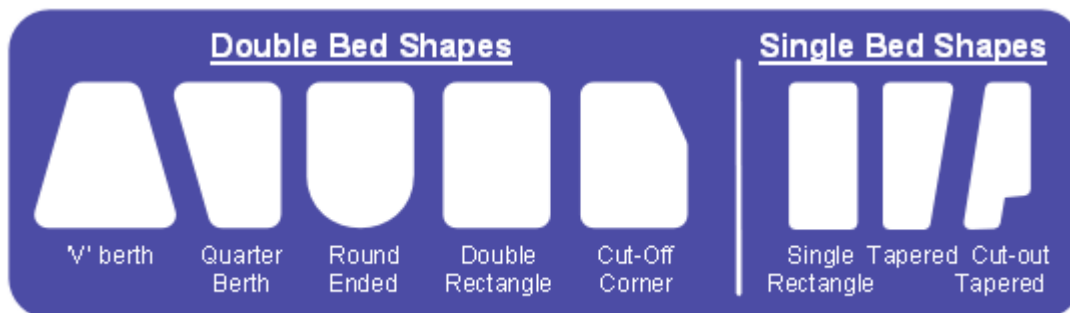

Ship Shape World Ltd 'Turners Farm' Tunstead Nr Wroxham Norfolk NR12 8RD

Shaped Duvets - Have you considered duvets that are the correct shape for your cabin beds?

Your cabins will be a whole lot neater, with round end beds not having corners drooping on the floor and too much duvet smothering your feet in 'V' Berths and Quarter Berths. Our single and double rectangular duvets are less wide than those bought for home and so they do not drag on the floor or pull off the bed in the night.

We make duvets and covers for most shapes of beds on boats. All are kept in stock, available "off the Shelf".

See our web site for more information www.ShipShapeBedding.co.uk
